Dear Mr. Kinney:

Mr. H. D. Neeley's memorandum of 29 May 1984 forwarded to us one document with the request that we review its classification status. We have reviewed the document with the following results:

The document, whose issuing office is not given, is presumed to have been issued by some component of the Department of Defense. It consists of 12 sketches of trends in various scientific and military weapons fields, and includes for each field a list of leading personalities in that field. The document is undated, and the only time frame given is a reference to the fact that some of the lists were extracted from CIA reports dated June 1951. CIA has no objection to the declassification of this document.

The document is returned to you herewith as requested, together with your list of attachments. We have added our classification review stamp showing our action.

Sincerely,

Chief, Classification Review Division  
Office of Information Services  
Directorate of Administration
